

# POWER DISTRIBUTION BLOCKS

## Finger-Safe

Fully insulated block ensures that no one can touch live parts. Recessed termination screws and wire openings provide IP20 grade protection and qualify as "finger-safe" per IEC 529.

## Compact Modularity

Single or multiple pole configurations in the most compact footprint. Allows users to build smaller or higher density panels.

## Snap on DIN Rail Mounting

Sizes 1 to 4 feature integral DIN rail adapters allowing for quick and easy installations on 35mm DIN rail yielding lower installed costs.

## Captive Termination Screws

Unique channel design ensures captive metric wire termination screws. Screws can never be lost.

## Available Accessories

For multi-pole panel mounting, simply snap in pins for rigid fit. Cap plugs provide the ability to maintain touch safety on unused openings. Circuit identification markers simply snap into blocks to ID circuits. End anchors provide rigid end stops.
